Dear ^{mark}Mr. Page:

During the past couple of years we have received two permits from your office for stream alterations: (1) Culvert installation in side drainage of the South Fork of Eccles Creek; and (2) New inlet structure in the Middle Fork of Eccles Creek. The construction has been completed on both of these projects. The willow cuttings will be planted in the Middle Fork of Eccles Creek early this spring. Both of these projects are ready for inspection at your convenience after snow melt this spring.

We appreciate your input into these projects.

Sincerely,

Keith W. Zobell
Environmental Engineer
